Data within CareConnect is a subset of information available to the health authority. It is not exhaustive or portray the patient's complete medical record history. (e.g. the document types that each health authority made available to CareConnect may vary, some information may not be available due to privacy restrictions, etc.)

WHAT IS CARECONNECT?

- Secure, view-only Electronic Health Record (EHR)
- Provides 24/7 access to an integrated, patient-centric provincial view of clinical information

WHY CARECONNECT?

- ✓ Quicker access to patient's health history
- ✓ Spend less time tracking down reports & results
- ✓ Avoid ordering unnecessary or duplicate lab tests and imaging
- ✓ Identify other clinicians involved in your patients care
- ✓ Information to facilitate referrals, triage and transfers of care
- ✓ Access to shared clinical information to enhance continuity of care
