OSCAR BC
By OSCAR users, for OSCAR users

ABOUT US

OSCAR BC is a not-for-profit organization that was founded in 2016, and is governed by a volunteer board of directors made up of OSCAR Users and experts, physicians & clinicians and OSCAR developers.

OSCAR BC empowers primary care providers with open-source EMR solutions by responding to user needs, supporting eForm creation, fostering connectivity across health systems, and enabling equitable, high-quality care, while maintaining transparency, collaboration, and trust.

OSCAR is one of the most widely used EMR's in BC, and the OSCAR movement remains strong. Funds collected, primarily through our Membership dues, are used to direct and prioritize OSCAR-related services and education.

OSCAR BC provides services to ensure that OSCAR continues to thrive and grow as a comprehensive, open-source EMR platform, in BC and throughout Canada.

We provide an array of learning and support resources, including training workshops and events (such as our annual OSCARCON event), webinars and instructional videos, user manuals and guides.

We also offer tailored eForm programming services (for nominal fees and discounted for Members) which are shared openly on Oscargalaxy.org.

We advocate and collaborate with government, health authorities and various OSCAR service providers.
