

# OSCAR BC

Connecting Care • Creating Community

Ken Becotte, Executive Director, and participants at OSCARCON, June 2022

## **DIRECTORS SOUGHT - JOIN US!**

**OSCAR BC has vacancies on our board.**

Meetings are held about once a month with none over summer. Our non-profit is in a healthy financial position with a strong and stable membership. Help shape our future and express your interest in becoming a Director to [info@oscarbc.ca](mailto:info@oscarbc.ca)

We thank Founding Director Dr. Colleen Kirkham

who shared many years of insight and support to the OSCAR community as she steps down from our board. Thanks also to Barbara Gobis, Dr. Gunther Klein, Dr. Khai Phan, and Dr. Ravi Vanukuru for having served on our board in 2021.

### **ANNUAL GENERAL MEETING 2021**

**Sat Nov 19, 9 am - Save the Date!**

Join us for our AGM to review our many accomplishments in 2021, despite the difficult year that it was while we faced the challenges presented by COVID-19. Register to attend the AGM [here](#) or at [membership@oscarbc.ca](mailto:membership@oscarbc.ca)

**PANEL MANAGEMENT**

**PSP DASHBOARD**

**WEBINAR**

**2022**

### **FREE TRAINING WEBINAR**

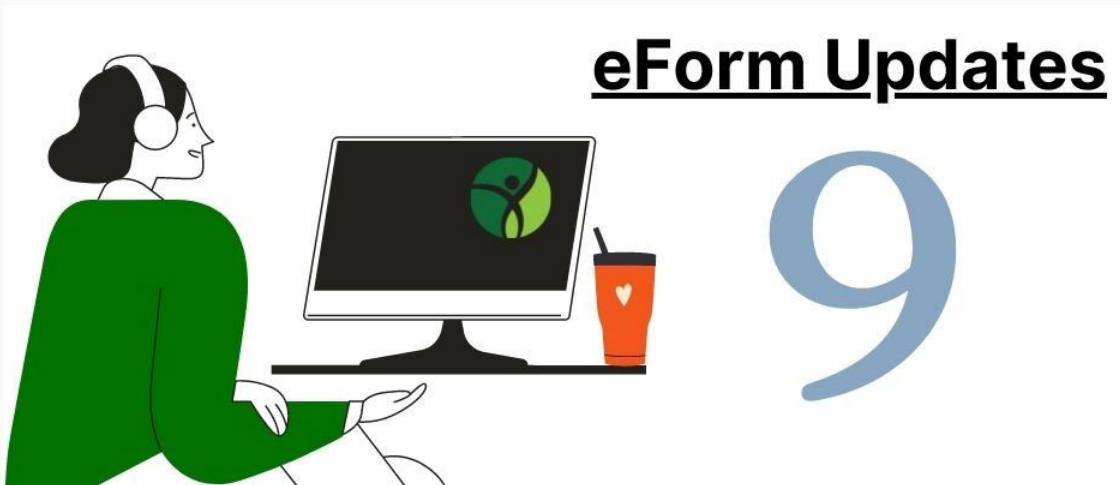

**Sat Nov 19, 9:15 am (after AGM) - 11 am**

Join us to learn about panel management from an MOA and physician's perspective. [Register now here](#) or email [membership@oscarbc.ca](mailto:membership@oscarbc.ca). The link to join will be sent to you by email.

### **OSCAR MANUAL**

It might be of some help to access the [OSCAR Manual](#) on World OSCAR. It's searchable and, for example, looking up eForm will get you links to the standard tags, measurements, and more.

## **eFORM UPDATES**

Use the [BC eForms Search](#) to find an eForm you need. Here's a list of a few of the more recent eForms updated. Let us know if you would like any eForms to be created for you via [oscarbc.ca/eforms](https://oscarbc.ca/eforms)

### **Asthma Control Test**

Updated by Dr. Hurwitz and posted [here](#)

Branding removed, Auto Scoring added. It can now be saved as HTML standalone to email to patient for self-completion

### **Fraser Health Echocardiogram eForm**

Posted [here](#)

Note from Dr. Robertson: "With apologies to the makers of the Standardized BC Echocardiogram eForm, I have created the FH Echocardiogram eForm at the request of the Horizon Medical Clinic. I also added some "accordioned" instructions on the side and an email link to start communications with the patient. I have added additional functionality. Now, if you go into the side menu and click on the site, the name and address of the site will be added to the email to the patient. Of course, you need to put the patient's email into their demographic for this to work. And also check what return email address you are using so that your personal email address isn't used."

### **Fraser Health Nausea and Vomiting in Pregnancy eForm**

Posted [here](#)

Note from Dr. Robertson: "This form is not even present on the Fraser Health website (the 2019 form is still there) but apparently the clinic is asking for it. The only change I can see is that Ranitidine has been replaced by Famotidine. If you remember an earlier post I had to capture this from the Fraser health "form fast" system as an image. There is a bit more "white" around the edges. I debated just coding the changes over the old image, but I decided to update the form with chart links, added a weight converter (lb to kg), added updated signature script, and removed some redundant code."

### **Fraser Health Traditional Wellness Mentors Referral**

Posted [here](#)

Created at the request of the Chilliwack and Fraser Health Rural Primary Care Network.

### **Get to Surgery Referral**

Posted [here](#)

The goal of the GET TO SURGERY program is to make sure that indeed we optimize your health in preparation for your joint replacement surgery. Ultimately we treat you where you are. We know that many of you have been told in the past to "just lose weight and then we will fix your knee or hip" or whatever. We are not going to do that here.

In this program, we will provide you with information about the SCIENCE of weight gain and weight regulation and evidence-based treatments to help with weight loss. We will work with you to help you better understand why certain treatments do and don't work and find a clinical pathway best for you.

NOTE: This is a virtual program. Patients must have access to the Internet and be able to use a computer to participate in this program.

### **Hope Health Services Referral**

Posted [here](#)

Created at the request of Dr. Darby. Referral to services in Hope BC.

### **New Chilliwack Obstetrics Group (COGs) Referral for 2019**

Posted [here](#)

There was a request to update the Chilliwack Obstetrics Group referral to add increase/decrease font size buttons to the History area, update the code, include a required field of LNMP, It now has 4 buttons - connection to the Antenatal Record, to the Documents, to the Lab Row display (where you choose which labs you want from the left side menu) and the Lab Grid display, where all the labs are available to be printed, and updates to Personnel in COGs.

### **Olive Tree Fertility Centre Referral - Surrey**

Posted [here](#)

Created at the request of the Young Clinic in Chilliwack

### **OHC Vascular Requisition V1 in Mississauga**

Posted [here](#)

Referral for imaging or Vascular Consult
