## eForm Updates

# 25

**eForms:** All notes have been provided by OSCAR Librarian Dr. John G.M. Robertson, unless otherwise noted. Access instructional videos on the [OSCAR BC eForms Playlist](#) (where eForms are, sorting, adding a signature, how to import, upload, organize them, and more).

**Note: All eForms will now be posted exclusively to World OSCAR**

BC eForms are also available on the OSCAR BC website, [BC eForms Search](#)

### **BC Cancer Agency Patient Referral eForm 2018 - Updated**

Posted [here](#)

John Robertson "I have noticed recently that the referral form for the BCCA has a horizontal and vertical offset that was not there before. I am not sure what the issue is, although it could easily be a coding mistake on my end that was overlooked in previous OSCAR versions (it formats fine outside of OSCAR, and indeed it formats fine from the eForm library, just not in a patient's chart). Nonetheless, I have updated the form and in the process added some minor changes. The name is different so you do not need to delete the old eForm from your library. The image is the same so you may get a notice that the image has not been uploaded as it is already present."

OSCAR BC was asked to make this eForm. It is quite a "busy" form with lots of information on the back page. Efforts have been made to make most of the information from said back page available to the side of the eForm. As well there are several links within the eForm to open up the back page...(updated) I have been unhappy with the busyness of the side of this eForm. Then I remembered The very slick Accordion CSS styling that Günther Klein has used on some of his eForms. I have grabbed that code (thanks Günther) and the side of the eform looks much better now. Posted in place of the previous version.

### **South Island Integrated Breast Cancer Program Centralized Referral**
